

## CN RACK SERIES

### PRODUCT INTRODUCTION

The CN series is designed for traditional energy storage applications, using high-performance other railway batteries, and 19-inch standard module design. The product has a small footprint, light weight, simple installation, and supports multiple communications.

### APPLICATION

Household energy storage  
 Distributed scenario power backup  
 Remote island power backup, etc.

### MAIN ADVANTAGE

- Long cycle life (1C charge and discharge, 80% DOD 5000+ times);
- 20-years design life
- Fast charge and discharge
- Intelligent balance, good consistency;
- LCD display; multiple communication modes optional
